

C.R.I.S.I.S.[®]

Contingency Readiness & Infrastructure Security Information System

C.R.I.S.I.S.[®] is perfect for:

First-Responders:

- Access critical information quickly in the event of an active incident.
- Map out security response routes and plans.
- Document after-action reports with facility floor plans, maps, and images.

Training Instructors:

- Create re-usable table-top training exercises.
- Allow instructors and trainees to perform "what if" scenarios.
- Educate workplace employees how to respond to an incident.

Security Assessors:

- Visually document site surveys.
- Analyze security vulnerabilities.
- Propose security improvements and designs.

Facility Security Managers:

- Document security and critical infrastructures.
- Orient and assign security forces quickly without walking through the facility.
- Develop Continuity of Operations Plans (COOP).

Screen Markup Tool - collaborate during incident

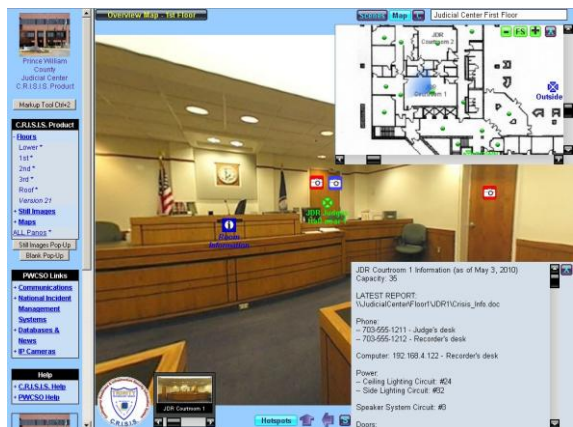

Photo album - Zoom-able Images and Data Sheets

Virtual Walkthroughs - High res panoramic scenes

Overview maps - panoramic image locations

Detailed Documentation - room information

Detailed Views - roofs and stairway video
